

# STRADA DEL VINO DELL'ETNA TOUR

## ETNA & WINE

This excursion is ideal to visit some of the most appealing areas of our volcano, starting from the lava flows which have intimidated the mountainous villages, visiting ancient valleys and a cave, equipped with helmets and flash-light. We will continue trekking among old sleeping craters.

You can't leave Sicily without experiencing the traditions of a country that has always managed to cultivate its jewels for centuries, in a highly fertile soil, at times surreal but always generous. The tour includes a guided tour of one of the best local wineries to enchant you with the taste of a rich bodied local wine accompanied by a tasting of typical local produce.
